

## *dominant 13th voicings*

the voicings here descend along the circle of fifths in two variations --

both include the 3, b7, 9 and 13 but in differing orders --

one is, in ascending order: 3, 13, b7, 9 -- the other: b7, 9, 3, 13

notice the 9 and 13 notes are preserved but switch roles from one chord to the next

it can be played in the left hand with, for example, a lydian dominant melody over it  
( see "lydian dominant exploration no 1" ) but here is presented as a 4-note right hand chord  
over with a circle of fifths bass pattern
